Skills

Languages & Frameworks: Python, JavaScript, TypeScript, React, React Native, Next.js, Node.js, Tailwind CSS, C#, Java

Tools & Platforms: Firebase, Supabase, Expo, Vercel, Git, Gemini API, Groq API, Anthropic API

Coursework: Data Structures, Fundamentals of Computer Science, AP Computer Science A & Principles, Advanced Game Design, Linear Analysis, Introduction to Computer Organization

Personal Projects

Mustang Market

- Grew to 850+ registered users, a peer-to-peer marketplace for Cal Poly students built with Next.js, TypeScript, and Firebase.
- Implemented user authentication, real-time messaging, and listing management with Firestore, supporting image uploads via Firebase Storage.
- Drove organic campus adoption with active daily listings and real-time buyer-seller communication.

VORA (Voice Operated Response Agent)

- Built a Chrome extension letting users control any website through natural speech — "read my latest email," "reply to Sarah," "add a meeting Friday at 3" — with Claude AI interpreting intent against the live page.
- Contributed to voice confirmation for destructive actions, automatic re-prompting when speech is unclear, and a "repeat that" command, with sensitive fields like passwords and payment info never read or filled.
- Worked across the full stack in TypeScript and React, including UI, voice pipeline, AI prompt design, and on-page action execution.

ENVISION Wardrobe

- Reached 90+ beta users on TestFlight for an iOS wardrobe app built with React Native and Expo, managing the full product lifecycle from concept to deployment.
- Architected secure backend infrastructure with Firebase (Authentication, Firestore, Storage, Cloud Functions), implementing rate limiting and API key protection through serverless proxy functions.
- Integrated Groq's Llama 4 Vision API for AI-powered clothing analysis, automatically detecting garment categories, colors, patterns, and brands from user photos.

Professional Experience

The Facility CA Concord, CA

Nov 2024 – Mar 2025

Employee

- Entrusted to independently open, close, and operate the facility, managing all daily operations without supervision.
- Resolved customer issues independently during high-traffic hours, maintaining strong satisfaction.
- Built repeat customer relationships through consistent, reliable service.

Math Tutor Clayton, CA

Nov 2023 – Apr 2024

Self-Employed

- Helped students improve grades through structured one-on-one sessions in Algebra 1 and Algebra 2.
- Adapted teaching approach to individual learning styles across middle and high school students.
- Managed my own client base, scheduling, and session planning for both remote and in-person sessions.

Education

California Polytechnic University, San Luis Obispo

San Luis Obispo, CA

Bachelor of Computer Science Candidate

2029

- Dean's List (Fall 2025, Winter 2026) | 3.83 GPA

Clayton Valley Charter High School

Clayton, CA

2025

- Scholastic Athlete Award (4 Years) | Presidents List (4 Years) | Honor Roll (4 Years)
- AP Scholar with Honors (2 Years) | NCS 2nd Team All-League (Baseball)
