EDUCATION

California Polytechnic University, San Luis Obispo

San Luis Obispo, CA

B.S. in Computer Science

Expected Graduation: May 2029

GPA: 3.83 (Dean's List: F25, W26)

Relevant Coursework: Data Structures, Fundamentals of Computer Science, Linear Analysis, Computer Organization

PROJECTS

Mustang Market

- Developed and launched a marketplace platform for Cal Poly students, growing to 900+ users in three months
- Integrated Cal Poly SSO via Microsoft Azure AD for authentication, restricting access to only calpoly.edu emails
- Utilized Groq APIs to flag and prevent unwanted images and descriptions during listing creation

VORA (Voice Operated Response Agent) - Kiro Hacks

- Built a Chrome extension in 13 hours that allows users to control their browser with voice commands with Web Speech API
- Extracted and filtered interactive elements from each page's DOM, uses Claude AI to interpret and act on user intent
- Designed a resilient voice activation function that adapts to unreliable speech-to-text, allows users to activate assistant hands-free

Job Board

- Created personal internship tracking platform with AI-powered job fit scoring based on resume and job description
- Designed "add job" function that allows users to input a link and have the job automatically be added to their personal dashboard
- Built job search tab that scrapes from external job sites and reformats all the data, so it can be searched and filtered

ENVISION Wardrobe

- Built an iOS wardrobe app where users catalog their wardrobe and receive outfit suggestions, reached 90+ users on TestFlight
- Integrated Groq Vision API to auto-detect clothing type, colors, patterns, brands, and names the item from user photos
- Self-hosted background removal on Google Cloud Run using rembg and Docker, eliminating API costs

WORK EXPERIENCE

The Facility CA

Concord, CA

Employee

Nov 2024 – Mar 2025

- Solely managed daily operations of the facility including, customer check-in, session readiness, and issue resolution
- Recalibrated Rapsodo radars in order to give customers consistent and accurate results
- Altered and customized machine settings to fit each customer's needs based on age, level, and personal requests

Math Tutor

Clayton, CA

Self-Employed

Nov 2023 – Apr 2024

- Helped students improve grades through structured one-on-one sessions in Algebra 1 and Algebra 2.
- Tracked students' grades on a graph to give them a visual representation of their growth
- Adapted teaching approach to individual learning styles, delivering sessions both remotely and in-person
